Showgard® Mount Gauge

ECONOMY TIP:

Showgard mount strips go a long way if unused portions are filed for quick and convenient retrieval. Original packages of Showgard mounts are ideal for this purpose when opened in the recommended way - first cut off the top of the package with scissors. Then cut away the left side. This converts the package to a convenient sleeve for holding partly used strip as well as unused contents of the package.

Showgard House - Edition No. 10. Entire Contents © 2003 Vidiforms Co. Inc. Congers, NY 10920. Printed in USA

What Showgard mount size for this stamp? 1. Place stamp on the perforation line. 2. Use the lowest number that is visible.**What is the size of this Showgard mount strip?** 1. Place strip on the 5mm line. 2. The size is the lowest number that is uncovered.
